Intermediate Skills in Laparoscopic Surgery

29-30 January 2015
RCS London

The aim of this intensive two day practical course is to provide you with a revision of the principles of safe laparoscopic practice including suturing and knot tying skills. You will also develop your skills and knowledge, such as laparoscopic gastroenterostomy, laparoscopic inguinal hernia repair and the use of laparoscopic staplers through intensive practical sessions intermixed with video presentations, tutorials and discussions.

Course contents include:
- Ergonomics
- Holding and manipulating tissue
- Knotting
- Nissen fundoplication
- Laparoscopic feeding gastrostomy
- Laparoscopic pyloroplasty
- Laparoscopic gastroenterostomy
- Use of harmonic scalpel

Who should attend?
ST 3-5 and SAS Grades.
