

ADVANCED SURGERY CADAVER SKILLS (ASiCS) IN GI SURGERY

DATE:	14 and 15 June 2018 13 and 14 December 2018
VENUE:	Clinical Anatomy Skills Centre, University of Glasgow, Thomson Building, G12 8QQ
TRAINING LEVEL:	ST3 - 6
FEES:	College member: £625 Standard: £700 Observer: £175
CLOSING DATE:	17 May 2018 (for June course) 15 November 2018 (for December course)

This course will be held in the Clinical Anatomy Skills Centre (CASC).

It is a facility designed to provide innovative and challenging education and training for physicians, surgeons, dentists and other allied health professionals.

CASC is a joint venture with the University of Glasgow and is based in the Anatomy Facility at the University.

COURSE DIRECTOR

Ms Susan Moug, Consultant Colorectal Surgeon, Royal Alexandra Hospital

Now in its fifth year, this two day cadaveric course aims to give intense hands on practical training in upper and lower gastrointestinal surgery to surgical trainees.

This course leads each trainee into the background principles of each operation using short lectures on operative technique that are then reinforced by hands on experience with a maximum of two delegates per cadaver. The operations performed are flexible depending on individuals' requirements.

The faculty is comprised predominately of consultant colorectal and upper gastrointestinal surgeons allowing the trainee easy interaction to maximise their learning opportunities. In addition, a clinical anatomist will be on hand to explain the anatomical principles behind each operation.

The course is aimed at ST3-6 level and delegates should have completed a BaSICS course or have a letter of support from their programme director that they are at an appropriate state in their training for this course.

There is also opportunity for a small number of ST1 and ST2 level delegates to observe the course.

Providing hands on experience using fresh frozen cadaveric material, this 2 day course will include:

Day 1

- *Laparoscopic appendicectomy*
- *Laparoscopic cholecystectomy and cholangiogram*
- *Laparoscopic hernia*
- *Laparoscopic perforated duodenal ulcer*

Day 2

- *Introduction for staplers*
- *Open gastrojejunostomy*
- *Splenectomy*
- *Open right hemicolectomy with hand-sewn anastomosis*
- *Subtotal colectomy and Hartmann's procedure*
